

## **Personal Budget Tracker**

The purpose of this website is to help individuals budget more efficiently and in a timelier manner. The website will allow users to enter their income, bills, shopping expenses, savings, etc. The site will keep track of the individuals spending and allow the user to sort there spendings by categories. Allowing individuals to furthermore budget more accordingly and be able to track what they are spending the most/least on. The website will also store information for various weeks, months, and year to allow reference to past spending.
